

## Digital Adapter Test

MPW Digital TV is receiving a large number of calls in response to our transition to all-digital service. Some Digital Adapters are taking longer than anticipated to make the conversion. If your Adapter does not seem to be working, please try performing the test below to determine if the Adapter is still converting to the new service or if you need to call MP&W. Your patience is appreciated.

Channel number	Channel working?
2	NO
3	NO
11	YES
54	YES
57	YES
180	YES

If the above channels **are** working as described above, your Digital Adapter is continuing to transition to MPW Digital TV's new digital system. Please remain tuned to one of the channels that is working, and your Adapter should begin to make the transition within a few minutes.

If the above channels are **not** working as described above, please call MP&W at 263-2631 and we will assist you in determining the cause.

You can check [www.mpw.org](http://www.mpw.org) or MPW Digital TV's Page on Facebook for updates.

***Thank you for your patience.***
