

**Muscatine
Power and Water**

Position Opening

Date Posted: 12/7/2011

Muscatine Power and Water has for Manager, Transmission and Distribution. This individual will direct and manage all activities related to the electrical transmission and distribution system including Engineering, T&D, Metering and Power Quality, and Technical Services.

This person will direct the activities of the Chief Operations Engineer which includes preparation of work orders, the maintenance of system maps in GIS system, evaluation of new equipment and materials, and development and application of construction standards and techniques. This individual will also maintain a strong relationship with residential, commercial, and industrial customers by providing reliable and outstanding customer service. Incumbent will also be involved and work closely with electrical contractors and other vendors. There are four direct reports and a total of 35 salaried and bargaining unit employees in this department.

This person will participate in labor relations activities including contract negotiations and labor management meetings. This manager will be responsible for monitoring and controlling costs of inventory and for directing the work related to line maintenance and new construction needs while making sure that there are adequate materials on hand. This individual will be involved in establishing service requirements for residential, commercial, and industrial customers as well as ensuring department compliance with the NERC Reliability Standards. They will also ensure that all employees have had adequate safety training and attend regularly scheduled safety meetings.

The successful candidate will have a BSEE with 7-10 years experience in utility transmission and distribution, preferably with a public power entity, and 5 or more years management experience.

Muscatine, Iowa is a city of approximately 23,000 with small town charm and big city opportunities and is located on the Mississippi River in eastern Iowa. It offers many amenities and activities for everyone. In addition, it boasts an excellent K-12 school system, as well as one of the state's premier soccer complexes. There are two 18-hole golf courses and 17 lighted ball diamonds at the Sports Complex where you will see everything from tee-ball to college baseball. Muscatine also has a new Aquatic Center. The Quad Cities and Iowa City are conveniently located within a short drive. Muscatine

is a progressive city with green power initiatives and it is a great place to live with a reasonable cost of living.
